

Licensing

All applications developed using makeup|SDK must be licensed in order to function. Our licensing models depend on your business model and how you are going to use our technology in your product; they vary from volume-based to revenue-sharing. In order to discuss the best licensing plan for your specific use case, please [get in touch](#).

Applications without a valid license key will not work properly. To find out how to obtain a license key file and how to use it with samples and your own projects, visit the [License keys page](#)*.
